

ADDENDUM 3

RFP #27-P001 – ESC Fiber Connectivity

Date Issued: August 6th, 2026

Addendum Purpose: Release of Building Entry Plans and Interior Fiber Pathway Information for the Emergency Services Center (ESC)

Alamance County is issuing this addendum to provide additional construction and design information related to the **fiber entry point, interior conduit routing, and path of travel** within the **Emergency Services Center (ESC) at 780 Plantation Drive, Burlington, NC 27215.**

The following materials are now made available to all prospective vendors:

1. ESC Building Entry Plans

These plans identify the designated exterior fiber entry location, grounding and bonding points, required conduit specifications, and available building penetrations approved for low-voltage utilities.

2. Interior Fiber Pathway Documentation

Documents include the recommended routing from the building entry to the data center, including:

- Approved conduit paths
- Intermediate junction locations
- Secure areas requiring escorted access
- Ceiling or wall-mounted pathway restrictions
- Locations of existing communications infrastructure
